WELCOME

WELCOME

On behalf of all the Intermodal team,
welcome to Intermodal Europe 2019.

As a relative newbie to the container shipping industry, I'm looking forward to getting to meet as many exhibitors and visitors as possible over the coming three days. That's the beauty of events – you can make meaningful and long-lasting connections over a short period of time.

In Intermodal Europe, I've inherited an event which has been at the heart of its sector for many decades. One which connects buyers with suppliers enabling business discussions to be conducted in a neutral venue. Intermodal Europe is an event where new trends and innovations can be discussed and evaluated and where market insights can be gathered.

I'm delighted that once again we will be welcoming the industry's leading names alongside some other "first timers". There is a huge range of products, services, solutions and innovations at this year's show which will certainly keep you occupied over the next three days.

We've created an engaging conference programme which will provide expert analysis and insights into the latest industry trends: from blockchain to the Belt and Road Initiative, cold chain logistics to IoT to a Worldwide Overview of the Container Shipping Market. Further information for all sessions is outlined further in this Guide.

Please do come and meet the Intermodal Events team on stand E54 where we would be pleased to listen to your feedback and discuss your plans for 2020.

On behalf of my team, I'd like to thank you for your continuing support and wish you a successful and productive Intermodal 2019.

Kind regards,

Rob Fisher
Event Director, Intermodal Europe

VISITOR INFORMATION

Opening times

Tuesday 5 November	10:00 – 18:00
Wednesday 6 November	10:00 – 18:00
Thursday 7 November	10:00 – 15:00

Accommodation

Preferential hotel rates are available for Intermodal Europe visitors.

www.intermodal-events.com/hotel

Banking

The nearest ATM is located in the Central Entrance / next to the TV tower.

Canvassing

Canvassing for orders/fly posting/leafleting by any unauthorised person is strictly forbidden. The organisers will exercise the right to remove any unauthorised canvassers.

Cloakroom

The Cloakroom is located in Entrance South. The cost is €2.00 per item.

Please note: Intermodal Events and Hamburg Messe cannot be held liable for any missing items.

Disabled access

Wheelchair lifts and disabled toilet facilities are available at the venue.

Fire exits

In case of an emergency – please make yourself aware of the fire exits on arrival. If you have any questions about health and safety, please ask a member of staff.

First aid

There will be a medical team present at the exhibition. The Medical Centre is next to hall B4 – ask our staff for directions.

Internet access

Wi-Fi access can be purchased directly from the venue.

Lost property

Any items lost or found should be reported to the Organisers' office located near to the exhibition entrance.

Organisers' office

During the show the Organisers' office is located B6.4. Please do not hesitate to visit us should you have any problems or queries.

Parking

There are several car parks available at the Hamburg Messe. The closest car park to Hall B6 is the East Underground Car Park, access via gate B5. Parking charges: €2.00 per hour, €17.00 per day.

Restaurants

There is a cafe in the exhibition hall offering drinks and snacks.

Smoking

Smoking is prohibited inside the Hamburg Messe.

Emergency procedures

Fire and emergency evacuation

The fire alarm sound for the building is a siren. If you hear the signal to evacuate, please leave immediately by the nearest exit and head to the nearest assembly point. Do not stop to collect personal belongings and do not use the lifts. When you reach the assembly point, remain there and await further instruction.

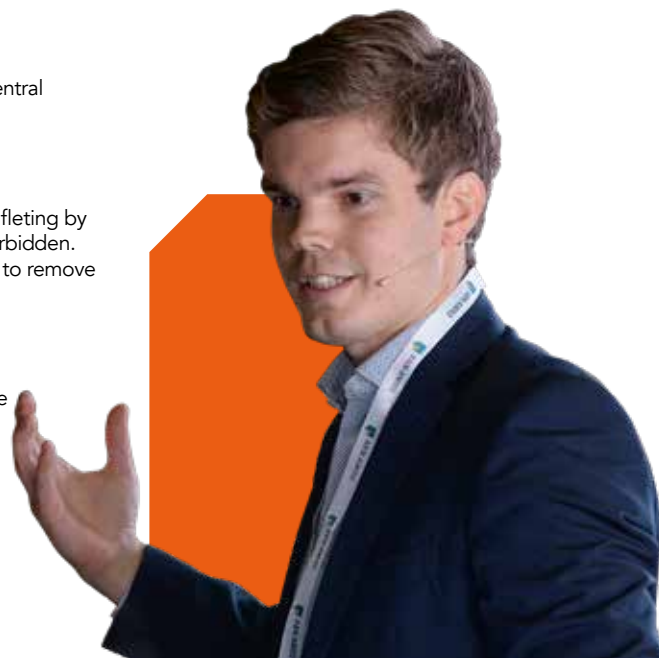

If you discover a fire

Raise the alarm by breaking the glass. Please leave by the nearest exit and go to the assembly point and await further instructions. Dial +49 403 5696 666 (Internal 6666).

Medical emergency

In the event of an accident or an emergency contact a member of staff or dial this number. If you are using a mobile phone or dialling from an outside line, dial +49 40 35 69 6666 (Internal 6666).

NB: If you see anything suspicious then report it immediately to a member of staff.

AGENDA AT A GLANCE

Industry Theatre

Day One Tuesday 5th November

10:30 – 12:00

Worldwide Overview of the Container Shipping Market

12:05 – 12:30

Reviewing Global Liner Shipping

12:35 – 13:00

The Effects Of The IMO 2020 Sulphur Cap On Liner Shipping

14:00 – 15:50

Belt & Road Initiative Forum

16:00 – 16:30

Experiences with Data Analytics and Machine Learning

Day Two Wednesday 6th November

10:30 – 11:20

Alternative Uses for the Shipping Container

11:50 – 13:00

Blockchain Technology and the Digitised Supply Chain

14:00 – 15:30

Cold Chain Forum

15:35 – 16:25

Investment Opportunities in the Saudi Rail Market

Day Three Thursday 7th November

10:30 – 12:00

Hamburg Focused Forum

Innovation Theatre

Day One Tuesday 5th November

10:30 – 12:00

Smart Ports and Terminals Forum

13:40 – 15:10

Container Optimisation and Platform Collaboration

15:30 – 17:00

Blockchain Technology and the Digitised Supply Chain

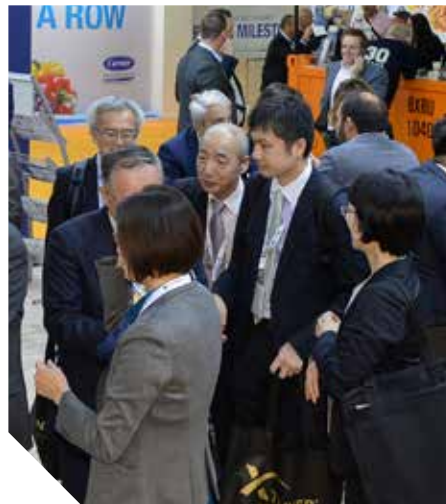

Day Two Wednesday 6th November

10:30 – 12:00

LoRaWAN for Multiple Country Purposes in Smart Logistics

12:45 – 17:00

IoT and Smart Container Forum

CONFERENCE PROGRAMME

Day One Tuesday 5th November

Industry Theatre

10:30 – 12:00

Worldwide Overview of the Container Shipping Market

A wide-ranging discussion on key issues impacting the intermodal market in 2019 and beyond. Topics discussed will include the current state of the worldwide economy; projected market conditions going forward; trade wars; macro-events; intermodal finance; and new technologies to create greater transparency in the supply chain.

Moderator: Alan Robertson, Director, Webster Robertson Ltd

Panel Discussion

Speakers:

Ruben Huber, Founder, OceanX Network

Simon Heaney, Senior Manager – Supply Chain Research, Drewry

Renzo Hoefnagels, Managing Director – Head of Coverage Transportation & Logistics EMEA, ABN AMRO

John Fossey, Editor, WorldCargo News

Orestis Schinas, Professor of Shipping and Ship Finance, Hamburg School of Business Administration

Innovation Theatre

10:30 – 12:00

Smart Ports and Terminals Forum

A focused discussion on key issues regarding creating and maintaining smart connected ports and terminals. Questions covered include: does connected mean smart? How will the port ensure that all stakeholders play their part? What are the key performance measures to focus on and who is the new competition?

Smart Shipping forums sponsored by: **KORE**

10:30 – 10:50

Smart Ports Worldwide

Adriana Moros Daza, Consultant, University of Hamburg

10:50 – 11:10

Contaeyener: Computer Vision System for a Container Terminal

Antonio Alvarez, IT Manager, Transglobal

11:10 – 11:30

The Market Impact on the Development of Smart Port Infrastructure

Jakub Koczara, Marketing Manager, Port of Gdynia

11:30 – 11:50

What is a Smart Port?: A Best Practice Approach for Digital Port Infrastructure

Sahar Lemanczyk, Senior Consultant, HPC Hamburg Port Consulting GmbH

11:50 – 12:00

Discussion & Close

12:00 – 13:40 BREAK

Day One Tuesday 5th November

Industry Theatre

12:05 – 12:30

Reviewing Global Liner Shipping

Mike co-founded the transport consultancy MDS Transmodal, which has now been trading since 1983. He specialises in shipping, port and rail freight economics and markets. Mike has directed numerous studies for government, local authorities and the private sector.

Mike Garratt, Chairman, MDS Transmodal

Industry Theatre

12:35 – 13:00

The Effects Of The IMO 2020 Sulphur Cap On Liner Shipping

Stefan joined Alphaliner in early 2016 as Liner Shipping Analyst and Editor North Europe after having been an Alphaliner correspondent for nearly 20 years. After working for three years for the former Belgian shipping company CMB Transport in various commercial functions, he decided in 1993 to become a full-time shipping journalist, writing for Nieuwsblad Transport (NL), the Port of Antwerp community (BE), Shippax (SE) and Fairplay (UK), before becoming Editor in Chief of the multimodal news platform Flows.be.

Stefan Verberckmoes, Liner Shipping Analyst & Editor North Europe, Alphaliner

13:00 – 14:00 BREAK

Innovation Theatre

13:40 – 15:10

Container Optimisation and Platform Collaboration

The cost of repositioning empty containers is still high and the management of empty containers within the logistics function is still a huge effort. This forum brings together the market leaders in this sector to give you an insight into how to save costs, fuel and effort through optimising your empty containers.

13:40 – 14:00

Digitisation of the Container Service Industry: The Benefits of Digital Marketplace on the Example of BOXXPORT

Jan Frahnert, Founder & CEO, BOXXPORT

14:00 – 14:20

Zero Wastage Cargo Network

Dhruv Taneja, Founder & CEO, Matchlog Solutions

14:20 – 14:40

Playing on a Global Market: How to Take the Risk out of International Container Logistics

Christian Roeloffs, Managing Director, Container xChange

14:40 – 15:00

Wakeo: A Collaborative Approach to Bring Real-Time Visibility on International Transport Flows

Julien Cote, Co-Founder & CEO, Wakeo

15:00 – 15:10

Discussion & Close

Day One Tuesday 5th November

Industry Theatre

14:00 – 15:50

Belt & Road Initiative Forum

Insights into new developments on the New Silk Road. From its strong roots in China to both European and Asian routes, the BRI links 152 countries in a single economic area. This forum looks at logistics, technology, new routes, possible future expansion and shipper feedback.

14:00 – 14:30

Latest Trends in China's Container Industry Chain and Insights into New Market Opportunities of the Belt and Road Initiative

Muyuan Li, Vice Chair & Secretary General, China Container Industry Association (CCIA)

14:30 – 15:00

Digitising the BRI

Henry Tillman, Chairman and CEO, Grisons Peak

15:00 – 15:20

Regional Development in the BRI Project

Aasim Siddiqui, Chairman, All Pakistan Shipping Association (APSA)

15:20 – 15:40

Asia Rail Bridge: The New Silk Road

Miguel Pereira de Sousa, Product Manager: Asia Rail Bridge, SENATOR INTERNATIONAL

15:40 – 15:50

Discussion & Close

Innovation Theatre

15:30 – 16:10

Blockchain Technology and the Digitised Supply Chain

How can blockchain transform the supply chain and create greater traceability, compliance, flexibility and stakeholder management? Experts on blockchain technology will discuss its implementation in the intermodal sector, including paperless ledgers and cryptocurrency payment methods.

15:30 – 15:50

Blockchain Use: Cases and Opportunities for Supply Chains

Nico Wauters, CEO, T-Mining

15:50 – 16:10

Beyond the Blockchain Hype: Low-Cost & Open-Sourced Technology is Available to Ensure Data Integrity and Trust in Supply Chain Coordination

Jens Munch, Head of Global Trade & Supply Chains, IOTA Foundation

Day One Tuesday 5th November

Industry Theatre

16:00 – 16:30

Experiences with Data Analytics and Machine Learning

Emerson is where technology and engineering come together to create solutions for the benefit of our customers. This forum discusses the Emerson journey and value hypotheses, an introduction to data analytics/machine learning and its practical application in the reefer cold chain, alongside key learnings and insights

Presented by Emerson

Speakers:

Lissa D'Arcy, Solutions Integration Manager

Paul Fullenkamp, Manager: Cold Chain Data Science

Niels Prebensen, Product Manager

Innovation Theatre

16:10 – 17:00

Blockchain Technology and the Digitised Supply Chain (continued)

16:10 – 16:30

The Role of Reefer Telematics in Fleet Wide Cost Savings

John Harnett, Senior Director: Marine & Intermodal, Globe Tracker

16:30 – 16:50

Blockchain and Machine Learning: New Technologies for Track-And-Trace and ETA

Thorsten Sickenberger, Co-leader: Mobility & Transportation, d-fine

16:50 – 17:00

Discussion & Close

Day Two Wednesday 6th November

Industry Theatre

10:30 – 11:20

Alternative Uses for the Shipping Container

Construction projects using shipping containers are becoming increasingly popular owing to their sustainability and cheap production cost. This forum features case studies of real-life examples of how the shipping container is being used to provide architectural solutions from temporary housing to restaurants and libraries.

10:30 – 10:50

Taking Advantage of 'Glocalisation': Build for Anyone, Anywhere

Matthias Laufer, Founder, xCube Solutions

10:50 – 11:10

The Architecture of Containers: Built Examples

Derek Trenaman, Owner, Ceardean Ltd

11:10 – 11:20

Discussion & Close

11:20 – 11:50 BREAK

Innovation Theatre

10:30 – 12:00

LoRaWAN for Multiple Country Purposes in Smart Logistics

Real-time, transparent and seamless indoor/outdoor tracking of assets, while optimising logistics and supply chains, has long been the focus of innovative companies around the globe. In particular, the recent emergence of low power wide area networks (LPWANs) is making this transition possible by enabling low-cost wireless connectivity over extremely long distances, on the order of miles from the nearest gateway, in combination with seamless roaming between networks and 10-year battery lifetimes.

In this panel, members of the LoRa Alliance that specialise in solutions for Smart Logistics with LoRaWAN technology present their experiences and real-life applications. Topics discussed are among others the transport market in Europe with a focus on Geolocation, Roaming (public/private) and cross-border accessibility, multi-country coverage and asset tracking.

Moderator: Pierre Gelpi,
Marketing Director, Semtech

Smart Shipping forums
sponsored by: **KORE**

12:00 – 12:45 BREAK

Day Two Wednesday 6th November

Industry Theatre

11:50 – 13:00

Developments in Box Technology

This forum looks beyond the traditional 20- and 40-foot containers in the shipping market to explore the latest technologies in the design and manufacture of new kinds of boxes. From collapsible containers to bottom dumpers, these containers are designed to increase efficiency and save costs.

11:50 – 12:10

Composite Tank Container Advantages and Possibilities

Juha Hiltunen, Sales Manager, Admor Composites Oy

12:10 – 12:30

Butterfly Flight Container: The 4.0 Solution for Multifunctional Logistics

Santiago Ruiz, Head Administrator, Silo Contenedor Granelero

12:30 – 12:50

15:40 – 15:45 BREAK

Day Two Wednesday 6th November

Industry Theatre

15:35 – 16:25

Investment Opportunities in the Saudi Rail Market

With a geographic area of more than 2.149 million square kilometers, Saudi Arabia occupies a strategic position linking the eastern and western parts of the world. Massive stretches of desert separate the various cities and industrial facilities as well as the main ports of both the Arabian Gulf and the Red Sea. The soaring boom over past years has placed it at the forefront of the region's economies in terms of growth, stability and productivity.

Tariq Ageel, Investment and Business Development Manager, Saudi Railways Company

Innovation Theatre

15:45 – 17:00

IoT and Smart Container Forum (continued)

As IoT technology spreads and the container shipping industry becomes further digitised, questions are being asked as to how we can adopt and adapt these technologies to our advantage. This forum brings together experts to discuss the use of IoT in monitoring, tracking, and smart containers.

15:45 – 16:00

Satellites Ensure Your IoT Big Data Yields Valuable Insights

Corry Brennan, Regional Simplex Sales Manager, Globalstar Europe Satellite Services Ltd

16:00 – 16:15

How to Find Value in Container Visibility

Robin Jaacks, Chief Commercial Officer, Ocean Insights GmbH

16:15 – 16:30

To Thrive, Smart Containers Need Global Data Standards

Jaco Voorspuij, Senior Manager: Transport & Logistics, GS1

16:30 – 16:45

The ICONET Project: Overview of a First Implementation of Physical Internet

Alessandro Vaglini, Chief Business Officer, NGS Sensors

Britta Balden, Founder & Managing Director, Electronic German Link GmbH (EGerLink)

16:45 – 17:00

Discussion & Close

Day Three Thursday 7th November

Industry Theatre

10:30 – 12:00

Hamburg Focused Forum

The port community of Hamburg has a long track record of digitalisation and collaboration. This interactive forum will give an insight of the key challenges and how they can be solved with joint forces and what are the next development steps within the port community.

New Container Auctioning module

BOXXPORT is now active in 184 countries and is the first global active, digital container service marketplace, active in 184 countries. For eight weeks the company has been live and is happy of the great acceptance within the industry. The first development phase included the module "Trading" and the marketplace community is heavily using it!

BOXXPORT will present its industry unique online container trading application at Intermodal Europe 2019. Moreover, they are introducing a new Container Auctioning module – the first container auctioning tool worldwide. This will soon be launched alongside the International Customs Clearance of Containers via BOXXPORT.

Container tracking and liquid level volume measurements

At Intermodal Europe 2019, CarrierWeb Tianjin Ltd are planning to launch dry container tracking and volume measurements by liquid Level for tank containers. Over the last 12 months, the company has launched a new container lock, which can be fixed onto containers and reduces the recycling cost.

The new Sekstant™ Global Guidance system

Maersk Container Industry will be launching Sekstant™ Global Guidance at Intermodal 2019. This system for reefer digitalisation is the company's most significant technological breakthrough since the introduction of its Star Cool reefer. Drawing on many years of involvement in reefer connectivity, Sekstant™ provides container operators with accurate data at any point along the transportation chain.

Brand-new range of valves and remote system

Fort Vale Engineering Ltd have recently launched their new product, Superseat footvalves, which is a technological advancement in sealing the area of valves to improve and reduce the effects of pitting corrosion. As well as this, the company is planning on launching their brand-new Cryogenic range of valves and a ground operated remote valve operating system at Intermodal Europe 2019.

A variety of models

Shanghai Vicmodel Co., Ltd will be launching a variety of models at Intermodal Europe 2019, including container models, ship models, truck models, airplane models, tank container models, forklift models and any customised intermodal vehicle scale models. The company believe container models are very important within the industry as they are widely used in international shipping.

One stop solution for all containerised requirements

DCM Hyundai Ltd is known globally for producing innovative, dynamic and customised solutions for its customers with optimised designs. We pride ourselves in being a single point solution from the design to the dispatch of products approved by various international agencies such as Bureau Veritas, Lloyds Register, Det Norske Veritas etc., as per the customer's requirements.

The company has been making all types of special containers for housing Gensets and other fabrication equipment, including DNV 2.7-1 approved offshore containers/cargo handling units, shelters, bunk houses, porta cabins, mud skips, expandable mobile containers, open top containers and double walled fuel tanks for multiple applications. We cater to shipping, logistics, oil and gas and global defence industries.

They have also designed, developed and manufactured specialised containers for Indian railways, oil exploration companies, FMCG companies and defence organisations. They welcome any new business opportunity for shipping containers, DNV approved CCU's and any other fabricated structures.

EXHIBITOR PROFILES

ABS

E70

At our depot, Meeberg offers full services for tank containers and containers including: used tank containers, new build tank containers, rebuild open top containers, mobile fuel stations, bitumen tank containers, parts and supporting equipment.

MRI INTERMODAL SOFTWARE

D46

9 King Street, London, EC2V 8EA, UK
w: www.mriintermodal.com

MRI Intermodal is a leading software supplier to intermodal operating and leasing organisations. With over thirty years of experience in the industry, MRI provides systems to manage the operations of fleets including tanks, box containers, swap bodies, reefers, flexi bags and IBC's. Previously known as RAM Intermodal, the company rebranded to MRI Intermodal Software in June 2019.

NAVLANDIS

F50

Orihuela, 32., Picanya, Valencia, 46210, Spain
w: www.navlandis.com

Navlandis is an innovative start-up to make transport more sustainable. Zbox, the new generation of foldable container, has the same features than the standard container, but we can fold it when it's empty. We can transport 5 folded containers in the same space as one, reducing 50% of the cost, 80% of the space, and 20% of the CO2 emissions.

NEXXIOT AG

D100

Technoparkstrasse 1, Zurich, 8005, Switzerland
w: www.nexxiot.com

Nexxiot AG, headquartered in Zurich, Switzerland, is a pioneer and industry leader in the development and delivery of digital supply chain management solutions. It is a spin-off of ETH Zurich, one of the world's leading technical universities. Founded in 2015, the company can rely on more than ten years of research in the areas of complex systems, big data algorithms and ultra-low power embedded technology. Three successful investment rounds enable the company to pursue ambitious global expansion plans. In addition to its headquarters in Switzerland, the company has offices in Germany and the USA.

NMT KONTEYNERS

D104

Istanbul Offices, Esentepe Mahallesi, Zincirlikuyu Kore Sehıterleri Caddesi, No16/1 Office 23, Sisli, Istanbul, 34394, Turkey
w: www.nmtlojistik.com

Based in Istanbul, NMT CONTAINERS S.A. is a subsidiary of NMT LOGISTICS S.A. We are a professional and experienced freight forwarding and warehousing company.

EXHIBITOR PROFILES

NOBLE CONTAINER LEASING

E40

Suite 2003, Pilkem Commercial Center, 8 Pilkem Street, Jordan, Kowloon, Hong Kong
w: www.noble-container.com

With our end-to-end logistics platform, we offer real-time fleet monitoring, predictive maintenance, and increased asset utilization to rail freight car, rail logistics and tank container logistics companies. We enable our customers to have full access to the knowledge hidden in their moving assets and cargos. This knowledge can be used for better process management and cost efficiency. Completed. In detail. Real time.

OCEAN INSIGHTS GMBH

A38

Goethe Strasse, 18 Rostock, Mecklenburg-Vorpommern, 18055, Germany
